Welcome to the MOSAIC Project Newsletter!

We're excited to welcome you to the official newsletter of the **MOSAIC Project**: Multilingual, multimOdal centraliSed AI-based hub for the European media Content market.

Our mission is to **build the future of European media** using groundbreaking AI-enhanced platform that will serves as a central, scalable hub for broadcasters, news creators, distributors, and consumers alike.

At its core, MOSAIC leverages sophisticated, multilingual, and multimodal AI to transform how we access and use vast knowledge repositories. This means **European producers and content creators can seamlessly connect and share content**, harnessing the immense wealth of our collective cultural heritage. What's more, MOSAIC will unlock new monetisation streams from this valuable, shared information, fostering a truly collaborative and interconnected European media landscape.
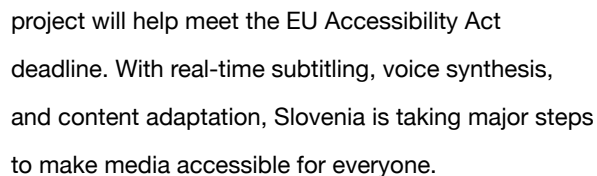

This is the first edition of our newsletter. Thank you for joining us in building a future where everyone can thrive in the media-rich world!

Past events

RTV Slovenija and MOSAIC Chart AI-Driven Future for Accessible Media in Slovenia

RTV Slovenija presented how the AI-powered MOSAIC project will help meet the EU Accessibility Act deadline. With real-time subtitling, voice synthesis, and content adaptation, Slovenia is taking major steps to make media accessible for everyone.
